February 7, 2012

Dear Mr. Xu Huaiwu,

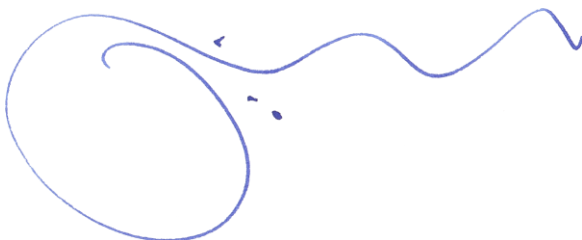

Enclosed are proposals for two sculptures which can be made for different locations. I have made seven digital Photo montages. These are:

1. "Butterfly (蝴蝶)" – painted (南方朱雀) stainless steel – the wings are 0.20 x 3 x 22 meters each; the total size about 20 x 30 x 11 meters high. The red/vermilion color of "butterfly" is chosen because the expansive energy of the sculpture resembles flames of fire and in the summer this color will complement the green of nature.
2. "OV or VO" - 5 different views of the same sculpture on three locations. The size can vary according to the location; so one sculpture between 15 and 25 meters largest size can be 15 x 21.21 x 11.55m. This sculpture is so composed that it will look totally different, depending on the direction from which it is viewed. Seen from a distance it will be seen as circle/ellipse – and from a viewpoint ninety degrees from that it will be a triangle standing on one point; this is my way of honoring Yang Hui (杨辉) in my sculptural way .

I have included two 3D animations of this sculpture to show its many shapes when seen from above or from ground level when moving around it.

For the exact size that the sculptures will be, it is of course necessary for me to study the locations.

Yours Sincerely,

Lucien A.M. den Arend
